HACKPRINCETON

Welcome to HackPrinceton. This has been in the works for ages, so we hope you're ready to have a blast! We've brought in LeapMotions and Raspberry Pi's, and talented mentors to help teams do their best; HackPrinceton is all about you. We really can't wait to see what you make.

Realize your potential.

<u>Friday</u>
5:30pm: Buses arrive
6:30pm: Opening Ceremonies
8:00pm: API Fair
8:00pm: Dinner
9:00pm: Team matching
9:30pm: Hacking Begins!
9:30pm: Galileo Talk
10:00pm: Intel XDK talk
10:30pm: Mashery talk
11:59pm: Pre-Midnight Snack!

<u>Saturday</u>
2 - 6am: Random Surprises!
8:30am: Breakfast (by Zynga)
12:00pm: Lunch
1:00pm: Savraj Singh (Tigerlabs)
1 - 3pm: Rock Climbing
1:30pm: Programming Contest
3:00pm: Cookies & Milk
4:30pm: Stephen Wolfram
              (Wolfram Language)
6:00pm: Banana Eating Contest
7:00pm: Dinner
10-12pm: Waffles and Dinges
9:00pm: Jeopardy vs Terry O'Shea
11:00pm: PingPong w/ an Olympian

<u>Sunday (open to public)</u>
9:00am: Hacks are complete
10:00am: Science Fair + Judging
12:00pm: Lunch
1:00pm: Final demos + awards
5:00pm: Buses leave

Special thanks to LeapMotion

Leap Motion™ provides a revolutionary new way for people to play, create, explore and learn with their computers. Leap Motion's proprietary technology, invented by co-founder David Holz, can track the in-air movement of both hands and all 10 fingers with incredible accuracy and no visible latency. The Leap Motion Controller is a small USB device. The California based company was founded in 2010 by David Holz and Michael Buckwald.

Main events and software hackers will be located in Jadwin Gym while hardware hackers can work in the electrical engineering lab (60 Olden St.) in the Engineering-Quad. Parking is available in Lot 21 by the gymnasium.

Mentors

Need help? Mentors will be available at the back of Jadwin (or in the E-Quad for hardware). Come by if you have any questions! Our mentors are industry professionals from companies such as Facebook, Google, MongoDB, Github, Rdio, SendGrid, Siemens, Mashery, Moat, Local Wisdom, Instream Sports, admitted.ly, Fleet Studio, Wolfram and many more!

There will be an API fair at the beginning of HackPrinceton where hackers will have the opportunity to talk to company representatives about how to get started using their API's. The following companies will have booths at the fair:

Namecheap	Bloomberg	Mashery	Tradier
SendGrid	Rdio	Intel XDK	Facebook
MongoDB	Moat	Electric Imp	Wolfram

Register at hackprincetonS2014.challengepost.com with your hack, for updates, and to be eligible for judging. Submissions may be may be made until 9AM Sunday morning. Judges will be using your online submission and in-person pitch to make their final decisions.

Due to fire regulations, hackers may not sleep in the gym. Buses will be available outside 12AM - 7AM; the seats are more comfortable than the floor of the gym anyways. We promise!

Prizes:

Software 1st:	Nvidia Shields, Wacom Tablet, $1000	Hardware 1st:	Bose Headphones, $1000
Software 2nd:	Wacom Intuos, $750	Hardware 2nd:	Atari Flashback, Puzzlebot, $750
Software 3rd:	$500	Hardware 3rd:	$500

Best Design:	Adobe CC, 12-month	Most Adorable:	Teddy Bears from ACM!
MongoDB:	Swag Pack	SendGrid:	Assorted Nintendo/SNES gear
Bloomberg:	Raspberry Pi's	Electric Imp:	Hardware + Adafruit Gift Cards
Intel XDK:	4 Galaxy Tabs	Mashery:	LE Posters, $200 Amazon Gift Card
Rdio:	2 years Premium	Social Entrepreneurship: $1000	

Wolfram API:	Wolfram Bundle + 3 Wolfberry Pis	Data Analysis:	Wolfram Bundle
Education:	Wolfram Bundle		

The top team in each track will have the opportunity to pitch to RoughDraft Ventures. Top software gains entry to Greylock's Hackfest. The Wolfram Bundle is a year-long subscription to Wolfram Alpha Pro and Mathematica for each member of the winning teams, and will also be awarded to all six track winners. Wolfberry Pi is a Raspberry Pi preloaded with the Wolfram language.

Whisper Challenge! Anonymously share your thoughts about HackPrinceton with Whisper App (http://whisper.sh) and tag "HackPrinceton". The most hearted (liked) whisper about HackPrinceton will win $100 cash prize. The whispers will be projected live at HackPrinceton.

Say hello to our Judges:

Mike Swift, Major League Hacking	Jim Medalia, 225AM.com	Katherine O'Neill, JumpStart
Peter Boyce II, RoughDraft.vc	Steve Lerner, JumpStart	Jon Wonnell, ReachOut
Chris Velazco, Engadget	Jim Betlyon, JumpStart
